

PLAN

BUSINESS DEVELOPMENT

We work with our clients to identify strategic opportunities, then sort through and focus on those ideas that create sustainable benefit and value.

BUSINESS PLANNING

We provide a clear-eyed analysis of your industry, including opportunities and threats, and an honest assessment of your community's potential strengths and weaknesses. We then develop a roadmap and timetable for achieving your goals and objectives.

STRATEGIC PLANNING

We specialize in developing straightforward plans that break all goals, actions and activities into an easy-to-use roadmap to success.

ECONOMIC DEVELOPMENT

One of the greatest challenges facing all communities and First Nations is finding ways to increase their participation in the economy. Our expertise is in working with communities to create focused and achievable plans that add value and bring sustainable benefits for the community.

EXECUTE

PROJECT MANAGEMENT

We employ a hands-on approach in creating solutions for our clients and our expertise is backed by our track record of on-time and on-budget project completion.

NEW BUSINESS IMPLEMENTATION

We work closely with communities to develop an implementation plan that outlines steps and processes needed to reach plan goals. We ensure that these steps and processes are well communicated throughout the project, driving accountability and tracking progress.

CONSTRUCTION PLANNING & MANAGEMENT

We work closely with reputable construction companies and sub-contractors to effectively meet the goals of your project, whether that project is a grocery store, gas bar, housing development or community infrastructure upgrade.

TURNKEY SOLUTIONS

We work to ensure that processes are developed with long-term success in mind and that they are carried out purposefully and in a manner that focuses on future sustainability.

SUSTAIN

CORPORATE STRUCTURE

Our experts can help ensure your business is organized to accomplish its objectives. Take the crisis out of management by determining ownership, control and authority.

BOARD RECRUITMENT & TRAINING

VisionQuest Advisors specializes in helping First Nations and other organizations establish their Development Corporations.

HUMAN RESOURCES

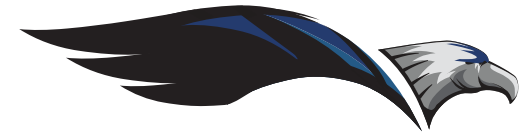

The importance of people to the economy has never been greater. At VisionQuest Advisors, our objective is to help you identify, recruit, engage and grow the very best people for your organization.

CAPACITY DEVELOPMENT

We help our clients mitigate pain points by ensuring that they have actionable strategies to employ for strengthening and stimulating inner capacity. We can identify the gaps occurring between the size or speed of development growth to ensure it has the human resources, infrastructure and tools to support success.
